Nestling into the top of a wooded hillside about 6 miles from the Lake, Cyfie Farm is in a spectacular setting overlooking the Vyrnwy Valley with views across the width of Wales. One of Visit Wales top twenty places to stay, the stunning views are best enjoyed from the National Gardens Scheme Gardens or the hot tub and sauna spa. The bird life is impressive here too a list of birds here is available on the farm website. This is such a peaceful, tranquil and remote location with all the comforts of a top hotel. All Guesthouse accommodation is in private suites with their own entrance, twin or king-sized bedroom, bath or shower room, private sitting room and kitchenette. The self-catering cottages are recently converted to the highest standard with features such as flagged under floor heating and steam shower. Locally sourced produce is used in all our cooking; both Neil and Claire, the owners, are Cordon Bleu trained and dinner is available by request Thursday-Saturday evenings.
